

EVER Cart™

The future-proof EVER Cart with MiX Module System® has the unique ability to be updated rather than replaced. A single EVER Cart can support USB and AC powered devices instead of having multiple carts to charge tablets and laptops.

Adjustable

Adjustable Slot Dividers allow modification of slot size based on devices, and Slot Numbering Bars keep devices organized.

Future Proof

MiX Modules are fully removable. Place on a work surface for quick and easy cable management and simple slot reconfiguration.

Locking Casters

Directional locking casters allow for maximum control during transport and offset locks protect walls and door-frames.

Model

T30C 2 MiX Modules, supports charging up to 30 devices
T45C 3 MiX Modules, supports charging up to 45 devices

Dimensions (W x D x H)

Cart 33.5 x 26 x 44.5 inches

Slot

T30C 1.0 x 17 x 10 inches

Adjustable Width: 1.00 to 1.25 to 1.50 inches | *Height:* 10 – 12 inches

T45C 1.0 x 17 x 10 inches

Adjustable Width: 1.00 to 1.25 to 1.50 inches

Weight (without devices)

T30C 176 lb | **T45C** 190 lb

Shipping

Ships fully assembled, ready to install devices.

Certifications 

Organized

Slot Numbering Bars allow for device organization and management.

Power Access Center

Circuit breaker rated for 2 amps, and USB port, which allows for upgrades to the power manager.

Cable Management

The MiX Module can be completely removed from the cart, and placed on a work surface, providing full access to cable management.

Added Safety

Torque resistant lock acts as a handle when supplied combination padlock is removed.

Future-Proof.

Create a hybrid cart that supports a variety of different devices using AC and USB MiX Modules in the same cart that you can personalize again and again.

Electrical Unit

Features an enclosed electrical unit for storage of device power adapters with an external on/off switch.

Built for Safety

The EVER Cart is UL 60950-1 Certified for Safety of Technology Equipment, and is GREENGUARD Gold Certified.

Standard Color

Duo-toned in Platinum/Anthracite

Digital Timer

Digital timer system ensures devices can safely charge in nine power management zones, without overloading circuit breakers, using a single cord from the cart to wall outlet.

All-Steel Construction

Cart is constructed from 18-gauge prime steel, which contains 25 to 35 percent post-consumer recycled content and is finished with powder coated paint.
